1. Identification

Product identifier: GP PRO ActiveAire® Coastal Breeze Deodorizer Refill

Product list: GP PRO ActiveAire® Coastal Breeze Deodorizer Refill; SKU 48250

Other means of identification: None.

Recommended use: Take precautionary measures against static discharge.

Recommended restrictions: Not available.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name: Georgia-Pacific Consumer Products LP
Address: 133 Peachtree Steet, NE
Atlanta, GA 30303
Telephone: Technical Information: 866.435.5647
(M)SDS Request: 404.652.5119
E-mail: MSDSREQ@GAPAC.com
Emergency phone number: Chemtrec - Emergency: 800.424.9300

Importer/Supplier/Distributor: Not applicable.

2. Hazard(s) identification

Emergency overview: This is a consumer care product that is safe for consumers when used according to the label directions. May cause an allergic skin reaction.

Physical hazards: Not classified.

Health hazards: Sensitization, skin Category 1

Environmental hazards: Hazardous to the aquatic environment, acute hazard Category 3
Hazardous to the aquatic environment, long-term hazard Category 3

Signal word: Warning

Hazard statement: May cause an allergic skin reaction. Harmful to aquatic life with long lasting effects.

Precautionary statement

Prevention: Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. In case of prolonged or frequently repeated contact, wear protective gloves. Avoid release to the environment.

Response: If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Specific treatment (see section 4 on the SDS).

Storage: Store away from strong oxidizing agents.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards: None known.

Supplemental information: None.

3. Composition/information on ingredients

Mixtures

Other components below reportable levels: 80 - 90

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

### 4. First-aid measures

**Inhalation**
Under normal conditions of intended use, this material is not expected to be an inhalation hazard. Call a physician if symptoms develop or persist. Move to fresh air.

**Skin contact**
Wash with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

**Eye contact**
Flush eyes immediately with large amounts of water. Get medical attention if irritation develops and persists.

**Ingestion**
Rinse mouth. Do not induce vomiting without advice from poison control center. If vomiting occurs, keep head low so that stomach content doesn’t get into the lungs. Get medical attention if symptoms occur.

**Most important symptoms/effects, acute and delayed**
May cause an allergic skin reaction. Dermatitis. Rash. Direct contact with eyes may cause temporary irritation.

**Indication of immediate medical attention and special treatment needed**
Provide general supportive measures and treat symptomatically. Symptoms may be delayed. Keep individual under observation.

**General information**
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

### 5. Fire-fighting measures

**Suitable extinguishing media**
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

**Unsuitable extinguishing media**
Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical**
During fire, gases hazardous to health may be formed.

**Special protective equipment and precautions for firefighters**
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire fighting equipment/instructions**
Use water spray to cool unopened containers.

**Specific methods**
Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards**
No unusual fire or explosion hazards noted.

### 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**
Provide adequate ventilation and avoid contact with skin and eyes. Wear appropriate protective equipment and clothing during clean-up. For personal protection, see section 8 of the SDS. Local authorities should be advised if significant spillages cannot be contained. Remove all sources of ignition.
Sweep up and shovel into suitable containers for disposal. Contain the spill, then place in a suitable container. Collect and dispose of spillage as indicated in section 13 of the SDS. For waste disposal, see section 13 of the SDS. Prevent product from entering drains.

Environmental precautions

Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Avoid contact with eyes, skin, and clothing. Provide adequate ventilation. When using, do not eat, drink or smoke. Do not taste or swallow. Wear appropriate personal protective equipment. Avoid release to the environment.

Conditions for safe storage, including any incompatibilities

Keep containers tightly closed in a dry, cool and well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS). Keep away from direct sunlight. Keep away from heat, sparks and open flame. Keep out of the reach of children. Storage 32-90°F (0-32.2°C) for less than 30 days. Optimal conditions for long term storage 60-75°F (15.5-23.8°C). Acceptable conditions for long term storage 40-80°F (4.4-26.6°C).

- **Biological limit values**: No biological exposure limits noted for the ingredient(s).
- **Appropriate engineering controls**: General ventilation normally adequate.

**Individual protection measures, such as personal protective equipment**

- **Eye/face protection**: Wear safety glasses or goggles if handling large quantities.
- **Skin protection**
  - **Hand protection**: In case of prolonged or frequently repeated contact, wear appropriate gloves.
  - **Other**: None necessary under normal conditions of use. Wear appropriate gloves if handling large quantities.
- **Respiratory protection**: Under normal conditions of use respiratory protection is not expected to be required.
- **Thermal hazards**: Not applicable.

**General hygiene considerations**: When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

### 9. Physical and chemical properties

**Appearance**

- **Physical state**: Solid.
- **Form**: Solid gel
- **Color**: Characteristic.
- **Odor threshold**: Not available.
- **pH**: Not available.
- **Melting point/freezing point**: 140 - 185 °F (60 - 85 °C)
- **Initial boiling point and boiling range**: Not available.
- **Flash point**: > 200.0 °F (> 93.3 °C)
- **Evaporation rate**: Not available.
- **Flammability (solid, gas)**: Not available.

**Upper/lower flammability or explosive limits**

- **Flammability limit - lower (%)**: Not available.
- **Flammability limit - upper (%)**: Not available.
- **Explosive limit - lower (%)**: Not available.
- **Explosive limit - upper (%)**: Not available.
- **Vapor pressure**: Not available.
- **Vapor density**: Not available.
- **Relative density**: Not available.

**Solubility(ies)**

- **Solubility (water)**: Not available.
- **Partition coefficient (n-octanol/water)**: Not available.
- **Auto-ignition temperature**: > 626 °F (> 330 °C)
- **Decomposition temperature**: > 572 °F (> 300 °C)
- **Viscosity**: Not available.
10. Stability and reactivity

Reactivity
The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability
Material is stable under normal conditions.

Possibility of hazardous reactions
No dangerous reaction known under conditions of normal use.

Conditions to avoid
Avoid temperatures above 210 °C. Heat, flames and sparks. Extremes of temperature and direct sunlight.

Incompatible materials
Strong oxidizing agents.

Hazardous decomposition products
Carbon dioxide, carbon monoxide, and unburned hydrocarbons.

11. Toxicological information

Information on likely routes of exposure

Inhalation
Health injuries are not known or expected under normal use.

Skin contact
May cause an allergic skin reaction.

Eye contact
Direct contact with eyes may cause temporary irritation.

Ingestion
Not applicable under normal conditions of use. May cause gastrointestinal irritation if ingested.

Symptoms related to the physical, chemical and toxicological characteristics
May cause an allergic skin reaction. Dermatitis. Rash. Direct contact with eyes may cause temporary irritation.

Information on toxicological effects

Acute toxicity
May cause an allergic skin reaction.

* Estimates for product may be based on additional component data not shown.

**Skin corrosion/irritation**  Prolonged skin contact may cause temporary irritation.

**Serious eye damage/eye irritation**  Direct contact with eyes may cause temporary irritation.

**Respiratory or skin sensitization**

**ACGIH sensitization**
- BETA-PINENE (CAS 127-91-3)  Dermal sensitization

**Canada - Alberta OELs: Irritant**
- BUTYLATED HYDROXYTOLUENE (BHT) (CAS 128-37-0)  Irritant

**Canada - British Columbia OELs: Respiratory or skin sensitiser**
- BETA-PINENE (CAS 127-91-3)  Capable of causing respiratory, dermal or conjunctival sensitization.

**Canada - Manitoba OELs Hazard: Dermal sensitization**
- BETA-PINENE (CAS 127-91-3)  Dermal sensitization

**Canada - Quebec OELs: Sensitizer**
- BETA-PINENE (CAS 127-91-3)  Sensitizer.

**Canada - Saskatchewan OELs Hazard Data: Sensitiser**
- BETA-PINENE (CAS 127-91-3)  Sensitizer.

**Respiratory sensitization**  Not classified.

**Skin sensitization**  May cause an allergic skin reaction.

**Germ cell mutagenicity**  No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

**Carcinogenicity**  This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

**ACGIH Carcinogens**
- BETA-PINENE (CAS 127-91-3)  A4 Not classifiable as a human carcinogen.
- BUTYLATED HYDROXYTOLUENE (BHT) (CAS 128-37-0)  A4 Not classifiable as a human carcinogen.

**Canada - Manitoba OELs: carcinogenicity**
- BETA-PINENE (CAS 127-91-3)  Not classifiable as a human carcinogen.
- BUTYLATED HYDROXYTOLUENE (BHT) (CAS 128-37-0)  Not classifiable as a human carcinogen.

**Reproductive toxicity**  Not classified.

**Specific target organ toxicity - single exposure**  Not classified.

**Specific target organ toxicity - repeated exposure**  Not classified.
Aspiration hazard: Not applicable.
Chronic effects: Not hazardous under normal conditions of use.

### 12. Ecological information

</table>

#### Mobility in soil
No data available.

#### Other adverse effects
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
13. Disposal considerations

Disposal instructions
Do not incinerate used or unused product.

Local disposal regulations
Dispose in accordance with all applicable regulations.

Hazardous waste code
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging
Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information

TDG
Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not available.

15. Regulatory information

Canadian regulations

Controlled Drugs and Substances Act
Not regulated.

Export Control List (CEPA 1999, Schedule 3)
Not listed.

Greenhouse Gases
Not listed.

Precursor Control Regulations
Not regulated.

International regulations

Stockholm Convention
Not applicable.

Rotterdam Convention
Not applicable.

Kyoto protocol
Not applicable.

Montreal Protocol
Not applicable.

Basel Convention
Not applicable.

International Inventories

<table>
<thead>
<tr>
<th>Country(s) or region</th>
