1. Identification

Product identifier

42A PLASTERS

Material name: 42A PLASTERS

SAFETY DATA SHEET

1 / 8

Material name: 42A PLASTERS

4945  Version #: 02  Revision date: 10-03-2017  Issue date: 02-17-2017

SDS CANADA
**Other means of identification**
- **SDS number**: GP-42A
- **Recommended use**: Industrial Plasters
- **Recommended restrictions**: Workers (and your customers or users in the case of resale) should be informed of the potential presence of respirable dust and respirable crystalline silica as well as their potential hazards. Appropriate training in the proper use and handling of this material should be provided as required under applicable regulations.

**Manufacturer/Importer/Supplier/Distributor information**

**Manufacturer**
- **Company name**: GP Industrial Plasters LLC
- **Address**: 100 Peachtree Street, NW
  Atlanta, GA 30303
- **Telephone**: Technical Information: 800.225.6119
  (M)SDS Request: 404.652.5119
- **e-mail**: MSDSREQ@GAPAC.COM
- **Emergency phone number**: Chemtrec - Emergency: 800.424.9300

**Importer/Supplier/Distributor**: Not applicable.

**2. Hazard(s) identification**

**Physical hazards**
- Not classified.

**Health hazards**
- Acute toxicity, oral: Category 4
- Eye irritation: Category 2B
- Carcinogenicity: Category 1A
- Specific target organ toxicity following repeated exposure
- Health hazards not otherwise classified: Category 1

**Environmental hazards**
- Not classified.

**Label elements**

**Signal word**: Danger

**Hazard statement**: Harmful if swallowed. Causes eye irritation. May cause cancer. Causes damage to organs (lung) through prolonged or repeated exposure. Heat develops as product hardens. May cause serious burns during hardening (rehydration) resulting in possible permanent injury.

**Precautionary statement**

**Prevention**: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. After mixing with water, do not allow prolonged contact with skin until the product has completely hardened and cooled.

**Response**: If swallowed: Rinse mouth. Call a poison center/doctor if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF exposed or concerned: Get medical advice/attention. Specific treatment (see section 4 on the SDS).

**Storage**: Keep container tightly closed. Store away from incompatible materials (see Section 10 of the SDS). Protect from moisture.

**Disposal**: Dispose of contents/container in accordance with applicable regulations.
Other hazards
None known.
Supplemental information None.

3. Composition/information on ingredients

Mixtures

<table>
<thead>
<tr>
<th>Chemical name</th>

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments
Gypsum (calcium sulfate) contains naturally occurring crystalline silica (quartz) which is listed as a lung carcinogen. See Section 8 for exposure information.

4. First-aid measures

Inhalation
Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact
For skin contact, wash immediately with soap and water. Get medical attention if irritation develops and persists.

Eye contact
Do not rub eyes. Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Ingestion
Rinse mouth. Do not induce vomiting without advice from poison control center. If vomiting occurs, keep head low so that stomach content doesn’t get into the lungs. Get medical advice/attention if you feel unwell.

Most important symptoms/effects, acute and delayed
Causes eye irritation. Exposed individuals may experience eye tearing, redness, and discomfort. Skin contact during hardening (rehydration) may slowly develop sufficient heat that may cause severe burns possibly resulting in permanent injury. Do not allow product to harden around any body part or allow continuous, prolonged contact with skin. Handling can cause dry skin. Coughing. Discomfort in the chest. Shortness of breath. Prolonged exposure may cause chronic effects.

Indication of immediate medical attention and special treatment needed
Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.

General information
IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures

Suitable extinguishing media
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media
None known.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions
Firefighters should wear full protective clothing including self contained breathing apparatus. Use water spray to cool unopened containers.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe dust. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up

Sweep up or gather material and place in appropriate container for disposal. Minimise dust generation and accumulation. If sweeping of a contaminated area is necessary use a dust suppressant agent which does not react with the product. Contain the spill, then place in a suitable container. For waste disposal, see section 13 of the SDS. Prevent entry into waterways, sewer, basements or confined areas.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground. If large quantities enter a waterway, advise local authorities.

7. Handling and storage

Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Minimise dust generation and accumulation. Provide appropriate exhaust ventilation at places where dust is formed. Do not breathe dust. Do not taste or swallow. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Should be handled in closed systems, if possible. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store in a dry place. Store in original tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS). Keep away from food, drink and animal feeding stuffs.

8. Exposure controls/personal protection

Occupational exposure limits

| US ACGIH Threshold Limit Values: Time Weighted Average (TWA): mg/m3, non-standard units |
|------------------------------------------|-------------------------------|-----------------|---------------|
| Components | Type | Value | Form |
| Calcium sulfate hemihydrate (CAS 10034-76-1) | TWA | 10 mg/m3 | Inhalable fraction. |
| Silica-crystalline, quartz (CAS 14808-60-7) | TWA | 0.025 mg/m3 | Respirable fraction. |

| Canada. Alberta OELs (Occupational Health & Safety Code, Schedule 1, Table 2) |
|------------------------------------------|-------------------------------|-----------------|---------------|
| Components | Type | Value | Form |
| Silica-crystalline, quartz (CAS 14808-60-7) | TWA | 0.025 mg/m3 | Respirable particles. |

| Canada. British Columbia OELs. (Occupational Exposure Limits for Chemical Substances, Occupational Health and Safety Regulation 296/97, as amended) |
|------------------------------------------|-------------------------------|-----------------|---------------|
| Components | Type | Value | Form |
| Calcium sulfate hemihydrate (CAS 10034-76-1) | STEL | 20 mg/m3 | Total dust. |
| Silica-crystalline, quartz (CAS 14808-60-7) | TWA | 0.025 mg/m3 | Respirable fraction. |

| Canada. Manitoba OELs (Reg. 217/2006, The Workplace Safety And Health Act) |
|------------------------------------------|-------------------------------|-----------------|---------------|
| Components | Type | Value | Form |
| Calcium sulfate hemihydrate (CAS 10034-76-1) | TWA | 10 mg/m3 | Inhalable fraction. |
| Silica-crystalline, quartz (CAS 14808-60-7) | TWA | 0.025 mg/m3 | Respirable fraction. |

| Canada. Ontario OELs. (Ministry of Labor - Control of Exposure to Biological or Chemical Agents) |
|------------------------------------------|-------------------------------|-----------------|---------------|
| Components | Type | Value | Form |
| Calcium sulfate hemihydrate (CAS 10034-76-1) | TWA | 10 mg/m3 | Inhalable fraction. |
| Silica-crystalline, quartz (CAS 14808-60-7) | TWA | 0.1 mg/m3 | Respirable fraction. |

| Canada. Quebec OELs. (Ministry of Labour - Regulation Respecting the Quality of the Work Environment) |
|------------------------------------------|-------------------------------|-----------------|---------------|
| Components | Type | Value | Form |
| Silica-crystalline, quartz (CAS 14808-60-7) | TWA | 0.1 mg/m3 | Respirable dust. |

Biological limit values

No biological exposure limits noted for the ingredient(s).

Exposure guidelines

Occupational exposure to nuisance dust (total and respirable) and respirable crystalline silica should be monitored and controlled.
When using product, provide local and general exhaust ventilation to keep airborne dust concentrations below exposure limits. Use wet methods, if appropriate, to reduce the generation of dust.

**Appropriate engineering controls**

When using product, provide local and general exhaust ventilation to keep airborne dust concentrations below exposure limits. Use wet methods, if appropriate, to reduce the generation of dust.

**Individual protection measures, such as personal protective equipment**

**Eye/face protection**
Wear safety glasses with side shields (or goggles). Eye wash facilities and emergency shower must be available when handling this product.

**Skin protection**

**Hand protection**
Wear appropriate chemical resistant gloves.

**Other**
Impervious protective clothing and gloves recommended to prevent drying or irritation of skin.

**Respiratory protection**
When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

**Thermal hazards**
Wear appropriate thermal protective clothing, when necessary.

**General hygiene considerations**
Observe any medical surveillance requirements. Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

**9. Physical and chemical properties**

**Appearance**
Powder

**Physical state**
Solid.

**Form**
Powder.

**Colour**
Light grey to white

**Odour**
Low odor

**Odour threshold**
Not available.

**pH**
Not available.

**Melting point/freezing point**
Not applicable

**Initial boiling point and boiling range**
Not applicable

**Flash point**
Not applicable

**Evaporation rate**
Not available

**Flammability (solid, gas)**
Not available.

**Upper/lower flammability or explosive limits**

**Flammability limit - lower (%)**
Not applicable

**Flammability limit - upper (%)**
Not applicable

**Explosive limit - lower (%)**
Not available.

**Explosive limit – upper (%)**
Not available.

**Vapour pressure**
Not applicable

**Vapour density**
Not applicable

**Relative density**
2.3 - 2.7

**Solubility(ies)**

**Solubility (water)**
0.2 - 1 % at 22°C

**Partition coefficient (n-octanol/water)**
Not available

**Auto-ignition temperature**
Not applicable

**Decomposition temperature**
Not available

**Viscosity**
Not available.
Other information

Explosive properties  Not explosive.
Flash point class  Not flammable
Oxidising properties  Not oxidising.

10. Stability and reactivity

Reactivity  Reacts with water (normal condition of use).
Chemical stability  Stable at normal conditions.
Possibility of hazardous reactions  No dangerous reaction known under conditions of normal use.
Conditions to avoid  Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Contact with incompatible materials. Exposure to moisture.
Incompatible materials  Acids.
Hazardous decomposition products  May include and are not limited to: calcium oxide and sulfur dioxide.

11. Toxicological information

Information on likely routes of exposure

Inhalation  May cause damage to organs through prolonged or repeated exposure by inhalation. Dust may irritate respiratory system.
Skin contact  Dust or powder may irritate the skin. Skin contact during hardening (rehydration) may slowly develop sufficient heat that may cause severe burns possibly resulting in permanent injury. Do not allow product to harden around any body part or allow continuous, prolonged contact with skin. Handling can cause dry skin.
Eye contact  Causes eye irritation.
Ingestion  Harmful if swallowed.
Symptoms related to the physical, chemical and toxicological characteristics  Causes eye irritation. Exposed individuals may experience eye tearing, redness, and discomfort. Skin contact during hardening (rehydration) may slowly develop sufficient heat that may cause severe burns possibly resulting in permanent injury. Do not allow product to harden around any body part or allow continuous, prolonged contact with skin. Handling can cause dry skin. Coughing. Discomfort in the chest. Shortness of breath.

Information on toxicological effects

Acute toxicity  Harmful if swallowed.

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation  Skin contact during hardening (rehydration) may slowly develop sufficient heat that may cause severe burns possibly resulting in permanent injury. Do not allow product to harden around any body part or allow continuous, prolonged contact with skin. Handling can cause dry skin.
Serious eye damage/eye irritation  Causes eye irritation.
Respiratory or skin sensitisation

Respiratory sensitisation  Not classified.
Skin sensitisation  Not classified.
Germ cell mutagenicity  Not classified.
Carcinogenicity

Exposure to respirable crystalline silica in the form of quartz or cristobalite from occupational sources is listed by IARC and NTP as a lung carcinogen. Prolonged exposure to respirable crystalline silica has been known to cause silicosis, a lung disease, which may be disabling. While there may be a factor of individual susceptibility to a given exposure to a respirable silica dust, the risk of contracting silicosis and the severity of the disease is clearly related to the amount of respirable crystalline silica exposure and the length of time (usually years) of exposure.

ACGIH Carcinogens
Silica-crystalline, quartz (CAS 14808-60-7) A2 Suspected human carcinogen.

Canada - Alberta OELs: Carcinogen category
Silica-crystalline, quartz (CAS 14808-60-7) Suspected human carcinogen.

Canada - Manitoba OELs: carcinogenicity
Silica-crystalline, quartz (CAS 14808-60-7) Suspected human carcinogen.

Canada - Quebec OELs: Carcinogen category
Silica-crystalline, quartz (CAS 14808-60-7) Suspected carcinogenic effect in humans.

IARC Monographs. Overall Evaluation of Carcinogenicity
Silica-crystalline, quartz (CAS 14808-60-7) 1 Carcinogenic to humans.

US. National Toxicology Program (NTP) Report on Carcinogens
Silica-crystalline, quartz (CAS 14808-60-7) Known To Be Human Carcinogen.

Reproductive toxicity Not classified.
Specific target organ toxicity - single exposure Not classified.
Specific target organ toxicity - repeated exposure Causes damage to organs (lung) through prolonged or repeated exposure.
Aspiration hazard Not an aspiration hazard.
Chronic effects Causes damage to organs through prolonged or repeated exposure. Prolonged inhalation may be harmful. Prolonged exposure may cause chronic effects.

12. Ecological information

Ecotoxicity
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability No data is available on the degradability of this product.
Bioaccumulative potential No data available.
Mobility in soil No data available.
Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations Dispose in accordance with all applicable regulations.
Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
14. Transport information

TDG
Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

15. Regulatory information

Canadian regulations

Controlled Drugs and Substances Act
Not regulated.

Export Control List (CEPA 1999, Schedule 3)
Not listed.

Greenhouse Gases
Not listed.

Precursor Control Regulations
Not regulated.

International regulations

Stockholm Convention
Not applicable.

Rotterdam Convention
Not applicable.

Kyoto protocol
Not applicable.

Montreal Protocol
Not applicable.

Basel Convention
Calcium sulfate hemihydrate (CAS 10034-76-1)

International Inventories

Disclaimer
This SDS is intended to quickly provide useful information to the user(s) of this material or product. It is not intended to serve as a comprehensive discussion of all possible risks or hazards, and it assumes a reasonable use of the product. The information contained in this SDS is believed to be accurate as of the date of preparation of this SDS and has been compiled from sources believed to be reliable. It is offered for your consideration, investigation and verification. The user or handler (or their employer) should consider the specific conditions in which this material will be used, handled, or stored and determine what specific safety or other precautions are required. Employers should ensure that their employees, agents, contractors, and customers who will use the product receive adequate warnings and safe handling procedures, including a current SDS. Product users or handlers (or their employer) who are unsure of what specific precautions are required should consult their employer, product supplier, or safety or health professionals before handling or working with this product. Please notify us immediately if you believe this SDS or other safety and health information about this product is inaccurate or incomplete.

Revision information
Accidental release measures: Methods and materials for containment and cleaning up
Handling and storage: Conditions for safe storage, including any incompatibilities
